2012 OUTBACK

2.5i Touring Package shown

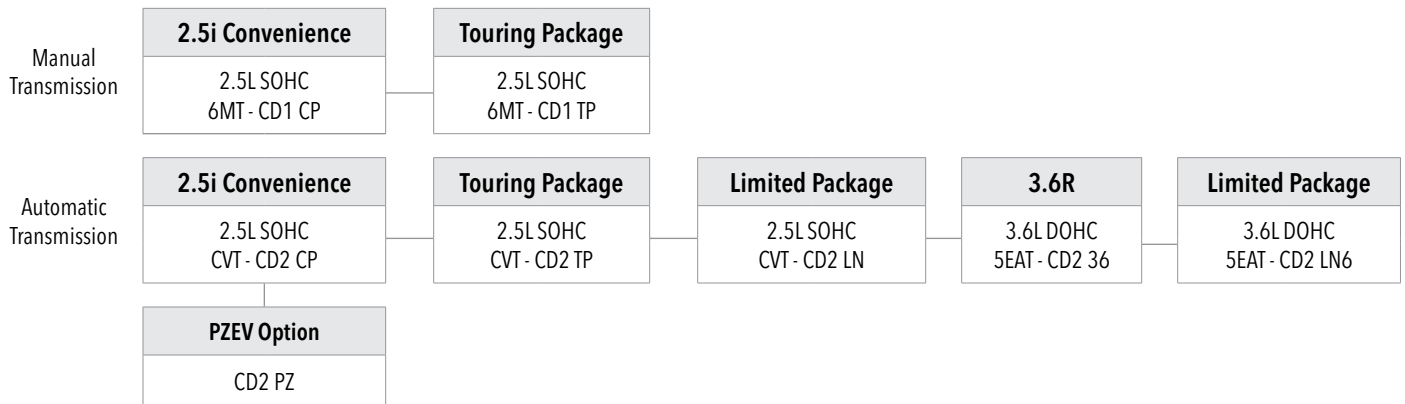

- 1** Folding side-view mirrors are ideal for those who park in tight spots or on the street.
- 2** Innovative raised-profile roof rails with integrated swing-in-place crossbars afford an SUV-like profile. They are rated to hold 150 lbs.
- 3** Despite being 20 mm shorter than the previous generation, the Outback has a 70 mm longer wheelbase for a more stable ride.
- 4** Dark lower cladding emphasizes Outback's impressive ground clearance, which is greater than many conventional SUVs.
- 5** Aggressive wheel arches give the Outback an SUV-like stance, and draw the eye to the standard 17-inch aluminum wheels.
- 6** Standard front fog lights add to Outback's go-anywhere appeal and provide crisp illumination in adverse conditions.
- 7** A front bumper underguard, on the 2.5i Touring Package, reinforces the rugged exterior styling.
- 8** The Outback's grille closely resembles Tribeca's, reaffirming Outback's position as the SUV alternative.

- 1** The Outback offers right-sized versatility with more cargo volume than Venza and the Accord Crosstour.
- 2** The Bluetooth® hands-free system is now standard on all models so drivers can keep their hands on the wheel and eyes on the road.
- 3** Every Outback is equipped with a 10-way power driver's seat, including power lumbar support. A comfortable driver is an alert driver.
- 4** The front seats utilize frames, firm head restraints and energy-absorbing mounting of the inner seat springs, all to help reduce chance of whiplash.
- 5** A MediaHub for iPod® and USB integration is standard on most models. Now an iPod® or USB can be controlled directly through the audio system.
- 6** For 2011, Outback won the ALG award for Best Midsize Utility of the Year. Noting Outback's handling, fuel efficiency, and ample interior room make it a great alternative to a SUV.
